EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Frank Chau on January 6, 2005.

The application has been amended as follows:

a. Cancel claims 18-20.

2. Claims 1-17 are allowed.
3. The changes made to claims 3 and 6 have overcome the rejection made under 35 USC § 112. The examiner also hereby withdraws the objection to the title and to claim 16 in light of the changes made by the applicant.
4. The following is an examiner's statement of reasons for allowance: the examiner is unaware of any prior art which suggests the formation of a common source line in a non-volatile semiconductor memory device by planarizing down to the same level as the polishing stop layer on the control gate/floating gate stack.
5. Endoh et al. (USPN 5,355,332) discloses a non-volatile semiconductor memory device which can be structured in a NAND configuration. However Endoh does not disclose planarizing the common source line and the gate stack

and then forming a silicide on both structures. Thus Endoh does not disclose the applicant's device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
